SECTION 02

What's working, what's not.

SAMPLE

Based on your last 30 posts, here's what to keep and what to fix first.

Keep doing this

- ✓ Reels get 3x the reach of plain photo posts — especially before/after transformations
- ✓ Posts that show your team by name get more comments than product-only shots
- ✓ You reply to DMs within a few hours, which keeps enquiries warm
- ✓ Saturday posts consistently outperform weekday posts

Fix this first

- ✕ Posting has 8-10 day gaps — Instagram shows your page to fewer people each time
- ✕ Captions rarely ask for anything — no "DM to book", no link, no clear next step
- ✕ Same 5 hashtags reused on every post, which limits how far each post travels
- ✕ No Stories between posts, so you disappear from the top of the feed for days

The one-line summary

Your content isn't the problem — your consistency and your captions are. A steady calendar and clearer CTAs are the fastest fix.

SECTION 03

3 competitors, studied side by side.

SAMPLE

ACCOUNT	FOLLOWERS	POSTS / WK	ENGAGEMENT	WHAT THEY DO WELL	YOUR OPPORTUNITY
@glow.ludhiana	5,120	4	2.8%	Daily Stories, strong reel hooks in first 2 sec	Match their posting rhythm — you have better before/afters
@thestylehouse.in	3,760	3	2.1%	Runs a monthly offer post that drives DMs	You've never run an offer post — easy quick win
@vaniaesthetics	8,940	5	3.4%	Client testimonial reels, tags every client	You have loyal clients but never feature them on camera

What this means for you

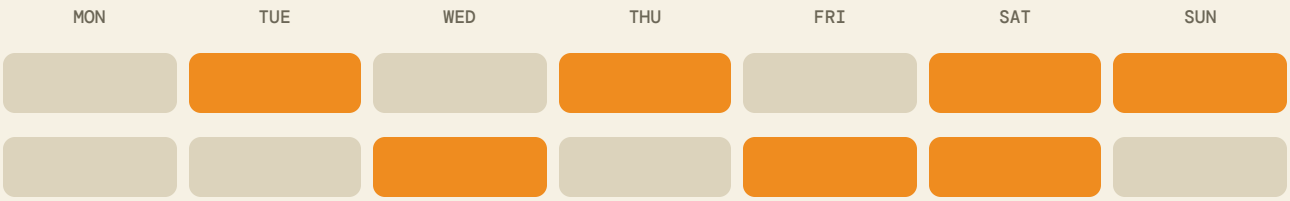

Every competitor in your market posts more often than you and uses at least one format you don't: offers, testimonials or daily Stories. Closing that gap is most of the growth opportunity here.

SECTION 08

Your action plan.

1. **Follow the 30-day calendar in order**
   Don't skip days — consistency is what fixes the reach problem.

2. **Post reels at the highlighted times**
   Saturday evening and weekday lunch hours are when your audience is online.

3. **Add a clear next step to every caption**
   "DM to book" or a link — never leave the viewer without something to do.

4. **Post one Story every single day**
   Even a quick behind-the-scenes clip keeps you visible between main posts.

5. **Review after 30 days**
   Compare your engagement rate and follower growth against this report's numbers.
